Mainstar Increases Customization for More Effective Audits

Flexibility and automation options support efficient storage management.

Mainstar Software Corporation, an industry-leading provider of data access solutions in the z/OS and large capacity storage arena, is announcing a new release of *FastAudit/390 Suite*, featuring customizable prioritization of audits. *FastAudit/390 Suite 9.01* is available as of June 13.

As installations experience a rapid increase in the amount of data – and requirements for 24x7 access – keeping the data environment error-free is becoming more crucial than ever. However, finding the time to do it is a challenge. *FastAudit/390 Suite* reduces the risk of failure by automating manual auditing and proactive recovery processes. Consisting of a comprehensive set of tools, *FastAudit/390 Suite* keeps your z/OS environment trouble-free with high-speed, accurate, and flexible audits.

With the new release of *FastAudit/390 Suite*, you can prioritize audits so that business-critical data is addressed first. One, several, or many specific data sets or applications can be targeted, and customized fixes can be selected for these audits. You can also automatically fix errors, and set up different fixes for different types of data. This release also includes new safeguards to protect your data.

"Most IT departments today simply don't have the time to audit and analyze their environments regularly," said Steven Clar, Mainstar Product Manager. "With the latest enhancements to *FastAudit/390 Suite*, you can ensure data integrity with customizable, automated solution."

About Mainstar

Mainstar Software Corporation, founded in 1978, provides innovative data access solutions for z/OS environments throughout the U.S.A., Canada, Europe, Australia, and the Asia-Pacific region. We offer outstanding products and services, backed by an extraordinary depth of knowledge and a focus for over 25 years on MVS and large system installations. Mainstar is a privately owned company in Bellevue, Washington, U.S.A. For more information, please visit www.mainstar.com, e-mail info@mainstar.com, or call (425) 455-3589.
